Meeting Dates 2018

Oct	10th
Nov	14th
Dec	12th
Jan 2019	9th
Feb	13th
Mar	13th
April	10th

Please note that dog waste has been found on a grave in the Cemetery.

Dogs are not allowed in the Cemetery under any circumstances!

Dog Fouling is a problem in our village

It's a problem that gets on lots of people's nerves - the scourge of dog owners who don't clear up after their pets. So, what can be done to rid streets and parks of their mess?

In reality there shouldn't be a problem - you own a dog, it eats, it poos, you clean it up. Failing to do so is anti-social, smelly and can spread diseases, including toxicariasis.

Toxocariasis is a rare infection caused by roundworm parasites. It's spread from animals to humans through contact with infected faeces.

Roundworm parasites are most commonly found in cats, dogs and foxes, and usually affect young children.

This is because children are more likely to come into contact with contaminated soil when they play and put their hands in their mouths.

However, cases have been reported in people of all ages.

For details of dog bins in your area please contact the Clerk.
